PROFESSIONAL SUMMARY

MERN Stack Developer and Software Engineer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in RESTful API design, JWT authentication, MVC architecture, and both relational (SQL) and non-relational (MongoDB) database design. Working knowledge of Redux Toolkit for state management and Data Structures & Algorithms for problem-solving, with production experience taking projects from database design through deployment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL

Frontend: React.js, Redux Toolkit, HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Database: MongoDB, Mongoose, SQL

Tools & Technologies: Git, GitHub, VS Code, WordPress

Concepts: MVC Architecture, CRUD Operations, Data Structures & Algorithms (DSA), API Integration

EXPERIENCE

MERN Stack Developer — Arbaj Technology 07/2025 – Present

- Build and maintain full-stack web applications using React.js, Node.js, Express.js, and MongoDB, following MVC architecture for maintainable code.
- Design and implement RESTful APIs using Node.js and Express.js to connect frontend and backend systems and support structured data exchange.
- Develop responsive, cross-browser user interfaces using React.js, JavaScript (ES6+), HTML5, and CSS3.
- Design MongoDB schemas using Mongoose and manage database operations for storage, retrieval, and validation.

PROJECTS

Electromart — E-commerce Web Application (electro-mart-ecommerce-website.vercel.app)

- Built a full-stack e-commerce web application using React.js, Node.js, Express.js, and MongoDB, implementing product listing, cart, and checkout workflows.
- Designed RESTful APIs for product management and CRUD operations, with MongoDB handling persistent data storage.
- Implemented user authentication and client-side form validation, and deployed the application on Vercel.

Club Management — Management Web Application (club-management-lilac.vercel.app)

- Developed a club management web application to handle guest entries, table bookings, and member records using the MERN stack.
- Implemented authentication, role-based access control, CRUD operations, and third-party API integration.
- Deployed on Vercel for live access and continuous updates.

Arbaj Technology Website — Company Website (arbajtechnologypvtltd.com)

- Built and deployed a responsive company website using React.js, JavaScript, HTML5, and CSS3, focused on clean navigation and cross-device performance.

EDUCATION

B.Tech, Computer Science Engineering

Swami Vivekanand Institute of Engineering & Technology, Rajpura
